Who We Have Worked With.

AND MUCH MORE.

Channel Letter Signs

Channel letter signs are custom-made metal or plastic letters commonly used in exterior signage on public and commercial buildings. They are highly visible, often illuminated, and can be crafted in various fonts, sizes, and colors to match any branding requirements. Each letter is typically illuminated with LED lights, providing bright and energy-efficient lighting that enhances visibility both day and night.

IDM Signs & Graphics specializes in the fabrication of high-quality channel letter signs. Our signs are UL certified, ensuring they meet stringent safety and quality standards. We offer complete customization, from design to installation, to perfectly match your business's needs. Our channel letters are crafted with precision and come with a comprehensive warranty, making them a reliable and durable choice for your signage requirements.

Enhance your business's visibility with our expertly crafted channel letter signs, designed to attract attention and make a lasting impression.

Halo Lit Letters

Halo lit letters, also known as reverse channel letters, offer a sophisticated and elegant signage solution that enhances any business's visibility and appeal. These signs create a stunning "halo" effect by illuminating the area around each letter, providing a soft, eye-catching glow that attracts attention both day and night.

IDM Signs & Graphics is dedicated to providing high-quality, impactful halo lit letters that elevate your business's visibility and appeal. Contact us today to discuss your signage needs and discover how we can help you create the perfect halo lit letters for your location.

Features of Halo Lit Letters:

Elegant Illumination: Halo lit letters are illuminated from the back, casting a glow around each letter. This creates a visually striking effect that is both professional and modern.

Durable Construction: Crafted from high-quality materials such as aluminum and stainless steel, halo lit letters are designed to withstand the elements and maintain their appearance over time.

Energy-Efficient Lighting: Utilizing LED lighting, halo lit letters are energy-efficient, long-lasting, and environmentally friendly. LEDs provide consistent, bright illumination with minimal power consumption.

Customizable Options: Available in a variety of fonts, sizes, and finishes, halo lit letters can be tailored to match your brand's aesthetic. Options include different colors for the halo effect, as well as various materials for the letter faces and returns.

Versatile Applications: Ideal for storefronts, office buildings, hotels, and other commercial properties, halo lit letters add a touch of elegance and professionalism to any setting.

Blade Signs

Blade signs are a versatile and eye-catching signage option mounted perpendicular to a building's façade, making them highly visible to pedestrians and drivers. They are ideal for businesses in busy urban areas, shopping districts, and other high-traffic locations. Blade signs come in various styles and materials, each offering unique benefits.

We offer a wide range of customization options, including colors, finishes, and lighting effects, to create a blade sign that perfectly matches your business's aesthetic.

IDM Signs & Graphics is committed to delivering high-quality, impactful blade signs that enhance your business's visibility and appeal. Contact us today to discuss your signage needs and discover how we can help you create the perfect blade sign for your location.

Types of Blade Signs:

Illuminated Blade Signs:

- LED Blade Signs: Energy-efficient and highly visible, ideal for nighttime visibility and drawing attention.
- Neon Blade Signs: Classic and vibrant, offering a retro look with bright, colorful illumination.

Non-Illuminated Blade Signs:

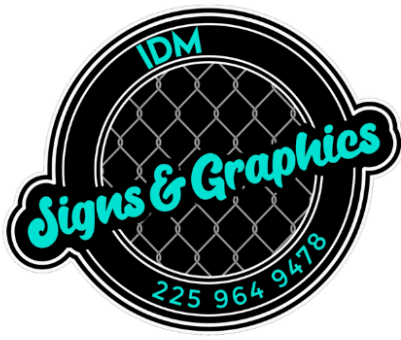

- Metal Blade Signs: Durable and weather-resistant, perfect for long-term outdoor use.
- Wooden Blade Signs: Offer a rustic, traditional aesthetic, great for boutique shops and historic districts.

Custom Shaped Blade Signs:

- Laser-Cut Designs: Unique shapes and intricate designs tailored to a business's brand.
- Three-Dimensional Signs: Stand out with depth and texture, creating a strong visual impact.

Double-Sided Blade Signs:

- Printed Both Sides: Ensure visibility from both directions, maximizing exposure.

WAYFINDING SIGN

Wayfinding signs are essential tools for guiding people through spaces, such as campuses, hospitals, airports, and large buildings. These signs provide clear, concise directions and information to help individuals navigate unfamiliar areas efficiently. Typically, they include maps, arrows, and text to indicate routes, destinations, and points of interest. Designed for both indoor and outdoor use, wayfinding signs are durable, highly visible, and often customizable to match the aesthetic and branding of the location. Their primary purpose is to enhance user experience by reducing confusion and ensuring smooth, efficient movement through spaces.

LARGE FORMAT PRINTING

Large format printing is a specialized process used to produce oversized graphics and prints, ideal for banners, posters, trade show displays, vehicle wraps, and more. This printing method allows for high-resolution images and vibrant colors, ensuring eye-catching and professional results. Utilizing advanced printers and high-quality materials, large format printing can accommodate various substrates, including vinyl, fabric, paper, and canvas. It is widely used in advertising, marketing, and promotional activities, providing a versatile solution for creating impactful visual displays.

HIGH-RISE PYLON SIGN

High-rise pylon signs are tall structures that offer maximum visibility for businesses and establishments. Positioned on tall poles, they attract attention from a distance, ideal for highways and busy streets. Often featuring illuminated or digital LED displays, these signs provide dynamic and eye-catching presentations. Constructed from durable materials, they ensure long-lasting performance and withstand various weather conditions. Highly customizable, high-rise pylon signs can be tailored to match any organization's branding needs.

DIGITAL LED SIGN

Digital LED signs on pylons are a modern and effective way to enhance visibility and attract attention for businesses, schools, churches, and other organizations. These signs feature bright, dynamic displays that can be easily updated with new content, ensuring timely and relevant messaging. Mounted on tall pylons, they offer high visibility from a distance, making them ideal for busy roadways and commercial areas. Digital LED signs are energy-efficient, durable, and customizable, providing a versatile solution for impactful communication and advertising.
